Learn to: **Keep Dropouts In!**

Finally, a
Workshop
Designed to
Motivate the
"Bored of Education"...

Each year thousands of students drop out of school... some physically... most mentally. Fear of failure, embarrassment, boredom and lack of relevancy destroy their innate love to learn.

This fun-filled and informational workshop is stuffed, stacked and double-packed with tools to make school a place where students want to be. A place where fear of failure and boredom are things of the past. Just imagine the possibilities!

*In the "Keeping Dropouts In"
Workshop, Teachers Learn to:*

- # Outsmart Failure-Prone Students...
- # Motivate the Unmotivated...
- # Catch Students Doing Things Almost Right...
- # Destroy the #1 Sin of Teachers...
- # Beat Boredom...
- # Fight the Fear of Failure...
- # P.O.P. One Student Each Day...
- # Use the #1 Communication Skill of Teachers...
- # Apply the Law of Accessibility to Change...

*Teachers apply
these skills the
next day of school!*
